Subject: RE: House Appropriations Request

Marc (b)(6), (...)

How does this work for #3 – I took additional language from the 2008 MOU between DHS, DOJ and DOS.

3. Is there any technical limitation that would prevent ICE from filtering out records from a particular jurisdiction if it decided to honor a locality's "opt-out" request?

There is currently no technical limitation that would prevent ICE from filtering out records from a particular jurisdiction. However; there are policy limitations pursuant to statutes and Executive Orders and consistent with Congressional appropriations guidance requiring the federal agencies to share information.

(b)(6), ... and (b)(6), (...)

Here are the questions forwarded to us from the House Appropriation Committee Friday evening. Would you mind taking a look at question 3? I can take a stab at question 1 and 2, and I can easily take care of 4. Randi asked me to forward responses to her and Marc by 10:00 this morning. Thanks for your help!

-David

1. Is DC actually enrolled in Secure Communities? The last time I checked, ICE was unable to get the DC Attorney General to sign the MOA and therefore had not turned on the system with the MPD. Has that changed?
2. When jurisdictions within a State with an active MOA ask to opt out of Secure Communities, does that request come to ICE or to the State Bureau of Investigations (or whomever else signed MOA)? If the opt-

out request is sent to ICE, what does ICE do with it?

3. Is there any technical limitation that would prevent ICE from filtering out records from a particular jurisdiction if it decided to honor a locality's "opt-out" request?
4. Can you please provide the Sept 7 letter from Napolitano to Congress? To whom was that letter sent?
